

## A Report on Kiev Airport

---

Our MD Dave Thompson recently travelled using Kiev Airport.

---

The airport is about 20 minutes from Kiev centre (on a good day), however if you catch a bad day it can take a lot longer especially as there is a three point intersection with no traffic lights so traffic can build up.

The main terminal was refurbished for the Euro 2012 football tournament and is quite quick and easy to transfer through. ATM's are widely available in the terminal. Immigration took less than 5 minutes to pass through.

As you come out of arrivals, avoid the first currency exchange desk and walk a further 20 meters or so to the next. The rate seems between 5-8% lower than the first desk.

We would recommend to book transport/transfers in advance. If you do not book in advance please try and find an official taxi company, the men that approached us outside the airport had questionable vehicles and can be more expensive.
