Happy Birthday, Austrian Airlines!

Did you know that Austrian Airlines has been operating for over 60 years, launching back in 1958. Today the Skytrax airline welcomes around 30,000 passengers on board - every day.

Expansion begins at Port Flexistowe

Approximately 13 hectares of new paved container yard is to be constructed directly behind Berth 9 at the UK's largest container port.

Completion of the new container yard, which will comprise ten container storage blocks and allow 6-high stacking, is scheduled for early 2019.

Virgin reduces fares and add 'super train'.

Virgin Trains continue their efforts to tempt customers from road and air travel, offering reduced fares of up to a third tickets brought on the day of travel.

The fares have gone down well since their introduction in May and their popularity has led to an increase in availability of walk-up fares across the East Coast.

The East Coast route will also see an upgrade to the state-of-the-art Azuma trains this year.

Saudi Arabian Airlines (SV)

We will now be asking for passenger contact details when booking Saudi Airlines (SV). The airline has announced that if passenger contact details are missing from the bookings they will fine travel agents. As a result we will not issue tickets for this airline without these details.

Air France/KLM marine and offshore news

AFKL are making changes to the way in which we can book marine and offshore fares. From the 1st January we will require a AFKL Bluebiz number to book these fares and are unable to issue AF/KLM tickets without.
