Etihad launches new Economy Space seating

Etihad Airways, the national airline of the UAE, is introducing Economy Space, a new seating option across its wide-body fleet, to enhance its product offering and to provide more choice to its customers on longer flights.

By December 2018, Etihad Airways will have retrofitted its 10 Airbus A380s with Economy Space seats, which feature an increased seat pitch of up to 36 inches. The redesign increases the number of extra legroom seats in Economy from 20 to 80 on this aircraft type.

Etihad Airways will have also added additional Economy Space seats to 12 Boeing 777s and 21 Boeing 787 Dreamliners by the end of 2019, increasing the total number of extra legroom seats by 560 per cent.

QE2 rechristened as Dubai Hotel

The luxury liner Queen Elizabeth 2, once the grand dame of transatlantic travel, has finally been reborn as a floating hotel in Dubai.

A Dubai-based firm purchased the ship in 2007 with plans to convert it into a hotel, but these were put on hold following the start of the financial crisis a year later.

The QE2 Hotel has 224 guest rooms spread over 13 decks of the ship, along with a British style pub called The Golden Lion among its ten restaurants and bars.

The Yacht Club has an outdoor deck with views of the Dubai skyline, and a swimming pool and private island style "beach" will open in December 2018.
