### YOUR LONDON AIRPORT

*Gatwick*

**Gatwick airport station to get  
£150 million upgrade**

The UK government has announced a £150 million investment to upgrade the rail station at Gatwick airport. The funds will be used to double the size of the station concourse, as well as to widen two platforms to reduce congestion, and to add five new lifts and eight escalators.

Gatwick said that the works would "reduce train delays caused by platform overcrowding and congestion, while also improving passenger experience by providing easier connections to other destinations".

The upgrade project will begin in spring 2020 and take around two years to complete, with works being "sequenced to ensure minimum disruption"
